HIGH SPEED GROUND TRANSPORTATION JOURNAL

CUMULATIVE CONTENTS

Volume 1, No. 1
January, 1967

High Speed Ground Transportation Research & Development 13
M. Miller

High Speed Transit in Urban Areas 22
R. A. Gakenheimer

The Planning and Economics of High Speed Transportation in a Region Under Rapid Urbanization 32
J. A. Johnson, G. Potvin & N. Wilson

The Command and Control of Future High Speed Ground Transportation Systems 47
A.R.L. Deacon

Analysis and Functions of Transportation 61
N. Simons

An Economic Imperative: The High Speed Auto Ferry 70
D. Clejan

The Levacar 76
A. A. Kucher

Flight in a Tube 80
J. V. Foa

Atmospheric Pressure Propelled Vehicle in an Evacuated Tube 92
S. Kumar

The French Aerotrain 100
F. Chapouthier

An Atmospheric-Vacuum Propulsion System for Medium Speed Transportation 105
J. J. Murray

Volume 1, No. 2
May 1967

Air-Lubricated Bearings and High Speed Tube Transportation 121
D. D. Fuller

The Effect of Vertical Geometry on Vehicular Stream Dynamics 139
W. R. McShane & H. N. Yagoda

Expanded Models of Urban and Transportation Systems 154
E. N. Thomas & J. L. Schofer

Report of the Panel on High Speed Ground Transportation 202
U. S. Dept. of Commerce March 1967

Volume 1, No. 3
September 1967

The Design of a Formed Guide to Provide Automatic Stability for Air Cushion Vehicles 263
G. Lanzara & D. J. Wood

Theoretical Power Requirements for Pneumatic Tube Vehicle Systems ..276
C. M. Harman

Transdrive Monorail Systems 286
E. E. Ehinger
First of a New Breed in Rapid Transit Cars 295
J. A. Gardner
Suggestions on the Development of Metropolitan Rapid Transit 307
D. Emmons
"Aerotrain" -A New Concept 316
STOL Transport Design 331
W.C.J. Garrard & J. M. Eaton
Mathematical Research in Traffic Flow 339
C. W. Hamilton
A Nationwide Utilities and Transit System 347
P. G. Fielding
Objectives and Obstacles in Mass Transit Development 364
A. R. Tomazinis

Volume 2, No. 1
January 1968

Transportation in Regional Development 1
R. L. Creighton
Transportation Research: Challenges and Opportunities for the University 8
E. N. Thomas
Closing the Gaps in Transportation Education 22
T. D. Larson
The Contribution of Research in Transportation Systems Planning 37
E. S. Diamant
Air Cushion Vehicles: Past, Present, and Future 55
J. A. Cannon and J. L. Wosser
The Central Elements of a Transportation System 88
E. N. Hall
Down to Earth Aerodynamics: Potential and Problems of the Fluid Mechanics of Rapid Ground Transportation 149
P.B.S. Lissaman
Some Aspects of Electric Propulsion 165
L. J. Linde
Nonstop Constant Speed Transportation 181
V. H. Larsen
Railway's Role in Speed, Service and Safety 205
L. K. Silcox
"The Central Park" 214
T. Addison Richards

Volume 2, No. 2
May 1968

Goals in Transportation 232
W. L. Hooper
Urban Transportation, Techniques 246
L. J. Pignataro
Instruments for Road Transportation 260
R. S. Foote

Transportation Structures 282
W. J. Hall
Then and Now in Transportation Concepts 303
J. J. Murray
A Systems Engineering Approach to Transportation 324
J. J. Pfarr
Transportation Modal Interfaces 339
E. V. Lewis
A Note on Guidway Optimization for Tube Transport Systems 353
J. V. Foa
The Economic and Industrial Aspects in Transportation 359
C. A. Taff
Role of the Rotary Wing in Future Short-Haul Transportation 369
W. H. Statler and R. A. Blay
"Living and Dead Cities of the Zuyder Zee." 388
A. H. Guernsey

Volume 2, No. 3
September, 1968

Social Factors in Planning Urban Transportation 400
R. A. Gakenheimer
Practical Considerations of Rapid Transit–A Summary of the Manchester Study (From the J. T. P. I.) 409
J. Millar and J. Dean
Power Demands of Tube Flight Vehicles 423
J. V. Foa
Government-Industry Task Force Report on the Washington-New York Rail Passenger Demonstration Project 451
The Advanced Passenger Train (APT) 460
S.F. Smith
Mass Transportation–A System Concept 476
F. H. Ferguson
Transport Way Roughness 484
H. Weeden, W. Gotolski and T. D. Larson
On the Need for a Definition of Demand for Transportation 576
J. B. Truett & A. J. Balek
Published Research Reports from the Office of High Speed Ground Transportation 593
U. S. Dept. of Transportation
Program Activity in the Office of High Speed Ground Transportation, May 1968 608
U. S. Dept. of Transportation
"Out of London" Appleton's Journal Vol. 1, 1876 624
Julian Hawthorne

Volume 3, No. 1
January 1969

Man, City and Automobile 1
C. A. Doxiadis

Hierarchies of Urban Movement 14
L. A. Hoel
The Infra-Structure of Progressive Society 20
M. Brown
Urban System Planning: Retrospect and Prospect 27
A. J. Catanese
Programming Models in the Systemic Planning Process 33
J. W. Dickey and A. W. Steiss
Community Activity Systems and Optimum Transportation 46
J. M. Simmie
The Control of the Interaction of Development and Communication 54
C. Barclay Millar
Speed and Community 63
A. E. Parr
The London of the Future and its Transport 66
M. Robbins
Health Concerns and Urban Transportation 73
R. A. Prindle, MD.
The Effects of Changes in Travel Costs on Trip Distribution and Modal Split 79
G. M. Hyman and A. G. Wilson
Transportation and the Person 86
K. H. Craik
Public Transport and the Quality of Urban Living 92
N. A. Irwin
Future Transportation in Cities as Reconsidered Around Man 156
G. Bouladon
A Control Index for High Buildings in Relation to Peak Pedestrian Crowding 165
G. Rosenberg
Transportation and the Urban Scale 173
E. T. Canty

Volume 3, No. 2
May 1969

The Network City 203
K. Tonuma
Behavior-Contingent Design and Transportation Networks 220
R. G. Studer
Transportation Planning in Megalopolis 230
J. B. Ellis and P. M. Pearson
The Transportation Analyst and the Social Environment 238
A. N. Sommers
Tube-Vehicle Drag 243
J. H. Skinner, Jr.
Secondary Suspension Requirements for Tracked Vehicles 255
N. K. Cooperrider
An Experimental Study of Aerodynamics of Vehicles Traveling at High Speeds Through Long Tubes 268
G. M. Gregorek and J. H. Engle
Optimized Rapid Transportation Concepts 276
G. Mouritzen

The Effects of the Location of Transit Stations on Building Density in Inner City Areas 285
G. Rosenberg

Volume 3, No. 3
September 1969

Analysis of the Effects of Wall Perforations on the Performance of a Vehicle in a Tube 335
D. E. Cromack

Preliminary Investigation of the Lift and Drag of an Airfoil Operated between Parallel Planes 352
J. C. Williams, III

Pneumatic Tube Vehicle System Simulation 361
C. M. Harman and J. J. Cudlin

Optimization of Advanced Buoyant Type Air Vehicles 372
G. Mouritzen

Future Policies for Transport and Pedestrians in Large City Centres ... 382
G. Rosenberg

Ekistics: An Attempt for a Scientific Approach to the Problem of Human Settlements 387
C. A. Doxiadis

Die Strassen Adolf Hitler (1938) 399
Fritz Todt

The Adolph Hitler Highways 427
Marie Grote

Volume 4, No. 1
January 1970

Towards a Theory of Traveler Mode Choices 1
A. N. Sommers

Fixed Facilities and Shifting Values 9
W. S. Homberger

Functional Travel Patterns in Urban Transportation 23
P. A. Graham

Attitudes to Pedestrianisation in the City Centre 39
P. Hart and B. Thompson

Consensus and Conflict in Community Responses to Freeway Planning .. 51
P. H. Cottingham

Town Planning and the Motor Car in Twentieth Century Britain: historical review of planning problems and policies 69
G. E. Cherry

Civil Systems in Urban Transport Decision Making 81
C. William Hamilton

The Survey of User Choice of Alternate Transportation Modes 103
T. F. Golob

Attitudes Towards Transportation Programs and Proposals: their nature and effects 117
R. P. Sleight

Opportunities for Publication of Research in Transportation 163
F. A. Haight

Communications, Chapter XIII of "Hitler Germany" 1939 167
Cesare Santoro

Volume 4, No. 2
May 1970

Passenger Reactions to London's New Victoria Underground Line 193
M. Robbins
The Terrafoil 197
G. L. Harris and G. R. Seeman
Supplemental Studies of Urban Transportation Systems Analysis 211
J.A. Boys, E. N. Dodson,
W. F. Hamilton and A. R. Sjovold
Structures for High Speed 273
B. Bramall
Human Values & Modern Technology 283
H. J. Muller
Our Postoffice (From the Atlantic Monthly, January 1875) 295
G. G. Hubbard
Department of Transportation News Releases
Remarks of Charles D. Baker, Assistant Secretary for Policy and International Affairs 314

Volume 4, No. 3
September 1970

The Economic Feasibility of Tubular Transportation 327
E.J. DiCamillo
Aerodynamics of Tube Vehicle Systems 363
A. G. Hammitt
Tubeflight–A Review 383
W. B. Brower, Jr.
Optimization of New, Practical Automotive Power Systems 417
G. Mouritzen
Individual Attitudes and Family Activities: a behavioral model of traveler mode choice 439
D. T. Hartgen and G. H. Tanner
Tubular Railway, or Pneumatic Dispatch From the St. James's Magazine (Eclectic Magazine, April 1862) 468
Historical Article
Department of Transportation News Releases
Office of the Secretary 476
Urban Mass Transportation Administration 480
Federal Railroad Administration 486
Federal Highway Administration 489

Volume 5, No. 1
Winter—Spring 1971

The Role of Attitude Studies in Shaping Corridor Demand 1
Stanley J. Hille

Citizen's Transportation Demands: Methods of Research and Settlement of Demands 11
Marian Madeyski

Mobilizing Community Leadership in Urban Transit Planning: An Overview 25
James C. Cotham, III, and Frank L. Hendrix

Some Regional Effects of Transport Innovation: The Case of Grey and Bruce Counties, Ontario 33
C.F.J. Whebell

Urban Transportation Project: The Multipurpose Undertaking of Modern Times 43
Anthony R. Tomazinis

Concept of Flexibility in Transportation Systems 53
Vulcan R. Vuchic

Southern California: Prospects for High Speed Interurban Transportation 63
Lawrence R. Taylor

National Railroad Passenger Corporation: Requiem or Renaissance 83
Edwin P. Patton

National Rail Passenger System 95
Major Features of Urban Mass Transportation Assistance Act of 1970 .. 97
Fact Sheet and Background-Urban Mass Transportation Administration .. 99
Excerpts From Remarks of Department of Transportation Officials 104
New Releases 153

Volume 5, No. 2
Summer 1971

Curved Track Rapid Transit Systems 189
Gunnar Mouritzen

Transport Policy Decision Analysis: An Expected Utility Approach 199
A. M. Khan

Urban Mass Transportation Problems In Developing Nations 215
Martin M. Roffman

"The Evolution of The Motor Bus as A Transport Mode" 221
John B. Rae

The National Plight and Dilemma of America's Railroads: It's Nice to Be Needed 237
R. Dillard Teer

The Electrification of the Puget Sound Lines of the Chicago, Milwaukee and St. Paul Railway 243
General Electric Review, January, 1915

Report of the Committees on Electrification of Steam Railroads 252
National Electric Light Association, 43rd. Annual Convention, May, 1920
Department of Transportation: Excerpts from Official Addresses 275
Departmental Administration News Releases 342
Department of Commerce: Unique Communications System for High Speed Trains 381
Environmental Protection Agency: A Device to Separate Municipal Trash 386
Department of Health, Education and Welfare: Super Flywheel For Power 388
Department of Housing and Urban Development: Vaudreuil–A New French Experimental City 390

Volume 5, No. 3
Fall 1971

Guest Editorial Comments i
Raymond G. Studer
Analysis for the Near Flow Field for High Speed Vehicle in Tubes 405
Sergio Panunzio and Daniel E. Magnus
Transportation in a Tube: High Speed Ground Transportation of of the Future 427
William P. Goss and Duane E. Cromack
Pricing the Use of Roads 443
Edmund H. Mantell
Transient Motion of an Automobile under a Steering Input 451
Edward A. Saibel and Shang-Li Chiang
The Air-Cushion Vehicle (ACV) Story 473
Joseph Cannon
The Linear Induction Motor Test Vehicle 477
K. M. Chirgwin
U. S. Government Releases
Department of Transportation: Excerpts from Official Addresses 501
Departmental Administration News Releases 527
Department of Housing and Urban Development: Innovative Solutions Seen Urgent Need for Solving Urban Problems 553

INDEX TO VOLUME 1 (1967) PAGE

January No. 1

M. Miller: High Speed Ground Transportation Research & Development 13

R.A. Gakenheimer: High Speed Transit in Urban Areas 22

J.A. Johnson, G. Potvin, N.E. Wilson: The Planning and Economics of High Speed Transportation for a Region under Rapid Urbanization 32

A.R.L. Deacon, Jr.: The Command and Control of Future High Speed Ground Transportation Systems 47

N. Simons: Analysis and Functions of Transportation 61

D. Clejan: An Economic Imperative - The High Speed Auto Ferry 70

A.A. Kucher: The Levacar 76

J.V. Foa: Flight in a Tube 80

S. Kumar: Atmospheric Pressure Propelled Vehicle in an Evacuated Tube 92

F. Chapouthier: The French Aerotrain 100

J.J. Murray: An Atmospheric - Vacuum Propulsion System for Medium Speed Transportation 105

May No. 2

D.D. Fuller: Air - Lubricated Bearings and High Speed Tube Transportation 121

W.R. McShane and H.N. Yagoda: The Effect of Vertical Geometry on Vehicular Stream Dynamics 139

E.N. Thomas and J.L. Schofer: Expanded Models of Urban and Transportation Systems 154

Report of the Panel on High Speed Ground Transportation, United States Department of Commerce: Research and Development for High Speed Ground Transportation, March 1967 202

September No. 3

G. Lanzara and D.J. Wood: The Design of a Formed Guide to Provide Automatic Stability for Air Cushion Vehicles 263

C.M. Harman: Theoretical Power Requirements for Pneumatic Tube Vehicle Systems 276

E.E. Ehinger: TransDrive Monorail Systems 286

J.A. Gardner: First of a New Breed in Rapid Transit Cars 295

D. Emmons: Suggestions on the Development of Metropolitan Rapid Transit 307

Bertin & Cie: "Aerotrain" - A New Concept 316
